Perhaps no one medicine is so universally reeathartic, nor was ever any before so universa. every country and among all classes, as this mild efficient purgative The obvious reason is that it is a more reother. Those who have

tried it, know that it cured them; those who have not, know that it cures their neighbors and friends and all know that what it does once it does alway -that it never falls through any fault or neglect of its composition. We have, and can show, thousands upon thousands of certificates of remarkable cures of the following complaints, but such cures are known in every neighborhood, and why should we publish them? Adapted to all ages and conditions in all climates; containing neither calo mel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating pre-serves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action - remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangenents as are the first origin of disease. Minute directions are given in the wrapper on the box, for the following complaints, which these

As a Dinner Pill, take one or two Pills to mote digestion and relieve the stomach. An occasional dose stimulates the stomach and

bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the diges-tive apparatus. There are numerous cases where a purgative is required, which we cannot enumerate here, but they suggest themselves to everybody, and where the virtues of this *Pill* are known, the public no longer doubt what to employ.

and Consumption. Probably never before in the whole history of medicine, has anything won so widely and so deeply remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear. Singers and Public Speakers find great pro-

So generally are its virtues known that it is unnecessary to publish the certificates of them here, or do more than assure the public that its qualific are fully maintained. Prepared by
